Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1942. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll, Certificate Winners, or has proven with us to be truly outstanding. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sale as yet, as well as many novelties.

HONOR ROLL, CERTIFICATE, AND PRIZE WINNING
1942 INTRODUCTIONS

HULIN'S MELODY

HULIN'S MELODY, S. C. (Hulin-Parrella) — It is almost impossible to paint a satisfactory word picture of a new dahlia, but when it comes to describing **HULIN'S MELODY** it is still harder. Words fail to express the exquisite beauty this flower possesses with its intriguing blend of golden yellow and rose lavender. The wavy petals show a rose sheen on the reverse which blends most delightfully into a melody of colors.

The color alone is not the only desirable feature of this new dahlia. The sturdy bush with long stiff stems holding ten-inch blooms well in the air is an outstanding addition to any garden. The large flowers have a full and tight center, being placed on the stems at an angle that looks right at you. Winner of several blues in the seedling class and a silver cup sweepstakes award at the Western Washington Fair. Well mentioned on the **HONOR Roll**.

Roots \$10.00 Plants \$5.00

DOROTHY SCHMIDT (Parrella-Blamer-Hulin)—A double Prize Winner at the A. D. S. Show in New York. This beautiful lilac shading to lavender colored semi-cactus received the coveted Leonard Barron Memorial Trophy, which is offered for the best medium type dahlia variety. Also a Special Silver Medal Certificate. Blooms average 7 inches in diameter, and 4 in depth. It was described by some of the experts as of almost perfect form. Pure lilac with a bluish tint. The most beautiful tones of this lovely dahlia show to best advantage after sundown. At that particular time the dahlia appears almost blue. This variety is of good branching habits, a profuse bloomer, with insect resisting foliage. Flowers are facing side on long slender, wiry stems. Height of plant about 4½ ft.

Roots \$7.50 Plants \$3.50

(A comment from Prof. Huey, on our Lynn Fontanne)

Paintsville, Ky., Nov. 27th, 1941.

Dear Mr. Parrella:

Just a few lines to let you know that your "Lynn Fontanne" is better than ever. This dahlia amazes me with its ability to produce a vigorous bush and immense, high class bloom in the face of a season that was characterized by everything that a dahlia season should not be.

R. G. H.

Kearny, New Jersey, Jan. 10th, 1942.

Dear Mr. Parrella:

I think it is only fair for me to write you about my success with the dahlia seeds you sent me last year. First I want to thank you for the extra seeds you sent me.

I had 83 plants from 100 seeds. They grew fine and I had 30 doubles with tight centers about 20 semi or half double and the rest singles. They all made beautiful tubers. As for colors, I had all the colors of the rainbow. Some beautiful scarlet reds—one in particular scarlet with white tips about one inch deep on the petals.

I am well satisfied with my first trial of your seeds and you can be assured of my patronage in the future. Please send me your 1942 Catalogue.

JUST A FEW OF OUR MANY TESTIMONIALS

Dear Sir:

I am enclosing an order for a few dahlia roots. I will say the ones purchased of you last year were BEAUTIFUL, just admired my neighbors, but am sorry to say lost every bulb during the winter, as I found today there seemed no life in them, all dried up. Will you please tell me if you can spare the time how to keep them through, what to pack them in, etc. I had one lovely, very large, sort of a reddish purple. I can't recall the name, only I'm sure it was petunia purple. I do not find it listed in my 1941 Catalogue. I am herewith enclosing check, can you supply me with the root mentioned in your Special Offer? I am a great lover of dahlias and would like to add a few new ones each year, providing I can keep the bulbs. Thanking you for taking your time.

TO OUR DAHLIA FRIENDS: LYNN FONTANNE AND
EDITH WILLKIE ARE TWO OF THE LARGEST AND BEST
1941 INTRODUCTIONS

LYNN FONTANNE

LYNN FONTANNE, S. C. to I. D. (Lee-Parrella)—Exhibition. 5 ft. tall. Blooms 13½ inches x 9½ inches. Spectrum red shades of carmine toward tips, with chrome yellow petaloids. The petaloids give a relief to the vivid red and soften the general tone color. Flowers facing on best of stems, the bush is an open grower with insect resisting foliage. A free and profuse bloomer. Has an exceptional long lasting quality after it is cut. One bloom measuring 13 inches x 9 inches which we had on display at "Gardens on Parade" lasted exactly ten days, and that is from Oct. 11th to Oct. 21st. At the end of that time it was a shame to discard it as it was in pretty good condition yet. "Lynn Fontanne" received First in the seedling class in a basket of 10 blooms, Sunday, Sept. 22nd at the A. D. S. Show at "Gardens on Parade."

Our display was beautiful and admired by everyone but also was rather an original one. As you can see from the photo we displayed a huge framed "Old Glory" made entirely of dahlias, white poms were mounted on the silver stars—bright red and snow white decoratives were used for the stripes. Needless to say our display attracted the most attention of the visitors particularly for the original idea of the flag which was highly commented on being very appropriate, particularly at this time.

JUST A FEW OF OUR MANY TESTIMONIALS

Clifton, New Jersey, Aug. 20th, 1941.

Dear Mr. Parrella:

I purchased some bulbs and seeds from you last spring and I am well pleased with them, my friend in Kingston, N. Y., is also glad he got his bulbs from you. The seedlings are doing fine. I have one that looks just like a lilac colored Chrysanthemum, your description of Magic Prince seems to fit it. I want to bring some of my seedling flowers over to you some Sunday, so you could tell me if they are new and worth naming. Would you have time to look them over?

Please send me some information on seedlings for trial, costs, etc. Please send me the address of the A. D. S. so I can subscribe. Does the book MODERN DAHLIAS tell how to propagate, pollinate dahlias? I have a lot more questions but I'll wait until I see you at the gardens.

O. De W.

Darby, Penna., March 1st, 1941.

Dear Sir:

Just a few words to let you know the Dahlia Seeds I bought from you last year were great. I had 44 plants out of 50 seeds, and the clumps are keeping well. I am very pleased with the results.

Dear Mr. Parrella:

In this short note, I desire to take the opportunity to tell you of the success I received with the tubers that I purchased from you this past year. Never before have I obtained such excellent results with dahlias, many blooms being between nine and twelve inches in diameter. The plants not only had large blooms, but there was a profusion of blooms. My dahlia garden was admired and envied by all. Due to the fine results I have obtained with your tubers, I would like to purchase the following:

TOWN TOPIC (Hulin-Parrella)—Something really sensational in a new dahlia. It is a direct cross of White Abundance on WENOKA and retaining the best features of both, the wonderful free blooming of Abundance and the fine keeping qualities, with long stiff stems, of Wenoka. **THE BUSH** is very rugged, medium tall with many laterals very upright. Insects left it entirely alone in our plantings. The blooms will average nine inches grown normally, with ten to fifteen inches of clear stem above the first set of leaves. According to the chart the general color is magenta purple shading to petunia purple. About ⅓ or more come perfectly tipped white, which is a glorious sight. If all blooms came tipped it would cost twice as much and be worth more. The fine keeping quality is a feature not found in many dahlias of this size. **THE FORM** of the bloom is a very compact formal, very deep and perfectly full at all times, never shattering. For the past two seasons it has been "The Talk of the Town" and this is how it acquired its name.

TEN BRIEF SUGGESTIONS TO THE AMATEUR ON HOW TO GROW BETTER DAHLIAS

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole, next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter, a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

JUST A FEW OF OUR MANY TESTIMONIALS

My Dear Mr. Parrella:

Lafayette, N. J., May 11th, 1941.

I received your shipment of dahlia roots in good condition. I planted them today, and it did not matter, they were shipped ahead of time, they all looked good. I appreciate very much that you sent me "Jean Trimbee" and also the root of "Town Topic" instead of the plant. You have always given me excellent service and your roots have been good, and I am sure I will be satisfied with them this time.

K. S. B.

Dear Sir:

Johnston, Penna., Feb. 25th, 1941.

At last I will take time to kill two birds with the same stone. I have been wanting to write to you for two years to tell you how I made out in the Shows for winning the Season Cup in 1939 and 1940. Well, we have gotten both of them, and made a clean sweep of Sweepstakes and I didn't put up a Cloth House either; so far we came out First. You may have seen it in the A. D. S. of the Fall Show. We also won two Gold Cups and eight Silver ones and a Yellow Maple Rockerand, and five other Sweepstakes. This was mostly achieved through your fine stock.

EDITH WILLKIE (Tooker) S. C.—Color, pure white. This beautiful exhibition dahlia won the “American Home Achievement Medal.” Blooms are of an immense size, from 12 to 15 inches in diameter. Regardless of its size, blooms are finely formed and are borne on cane-like stems. This particular variety attracted a lot of attention at the New York World’s Fair, 1940, as well as at the A. D. S. Show, 1941. We recommend this dahlia very highly.
